| | |
|-----------------------------|--|
| Aplication | Used for testing carbon & sulfur content ;Infrared Carbon-sulfur analyzer;Industrial Ceramic |
| Business Type | Manufacturer |
| Sample | Free offer |
| Blank of carbon and sulfur | C%<0.0003% ; S% >0.0002% |
| Maximum using temperature: | 1,500 deg.C |
| Precent of water absorption | >3% |
| Shape dimension | 23*23mm 24*24mm 25*25mm 26*26mm |
| Appearance | Cylindrical body, uplift at the bottom |
| Available in various types: | Round bottom, Curve, Square, Cylindrical,Customization available(custom design according to drawings) |
| Function | 1.No crack defection 2.No cracks or deformations during temperature-rising process |
| Life time | Circulation,Long term use, not the deformation ,not crack between 1300 and 1400 degrees Celsius . |
| Usage | Carbon and sulfur crucible which is widely used at steel,Metallurgy,Petroleum,Mathinofacture,Research department |
| Execution standard: |      ISO 9001-2000 |
| Minimum Order Quantity | 5000 Piece/Pieces |
| Package | 1000PCS/Carton |
| Supply Ability: | 1,00,000PCS/DAY |
| Payment Terms: | TT 30% Deposit before production ;TT 70% Balance before loading |
| Delivery Detail | Within 10 days after deposit |
| Packaging Details: | silver foiled or pure aluminum paper packing ,five storey corrugated carton or wooden carton |
| Origin: | CS Ceramic Co.,Ltd, Liling City ,China |
